In order to achieve the mission, it is interpreted that progress in achieving the Ends will result in mental health and well-being.:

- Improved mental health and social well-being (self-determined, self-rated) of the people we provide services to.
- Improved accessibility to our services while providing equitable levels of care.
- Our organization is a healthy and safe place to work, and responsive to current and evolving personal and workplace mental health and addictions needs.
- Lead, collaborate, and support system-level improvement and transformation initiatives.
- Improving social determinants of health of the people and population we serve.
